Where are some documentation on the game itself? Why are the guns so weak? How do I spped up and slow down? Can't recommend it yet.. Avoid.

The game has almost no content, is buggy, and has no instructions or directionality. And that's all apprent after only a few minutes of playing.

Example of how glarinly unfinished this is: The wave-based combat mode? Would be nice if some enemies actually spawned for you to shoot at.
